Can you or Brandi verify that I am up to date? I sent you all my certificates on my last email. Please advise.

Sincerely,

Valmichael Leos

Resending same note I sent a week ago – condition unchanged.

Folks, make this easy for Brandi when I leave. I'll reassess next week, and if we have 3 qualified divers – those will be the ones diving next month at San Jacinto.

All,

Remember that all your records (1st Aid/CPR, 8 hour hazwoper, medical clearance from Dr. Holland) must be up to date to participate. I'll check what I have and don't have later this week; but if you know you haven't provided something – please do. Also, all divers are required to maintain and provide an updated master log of all their dives. If you haven't done that in a while, please do so. I also need the medical emergency form that I sent out a week or two ago. You can bring that in a sealed envelope and provide to the divemaster working the dive, or bring to me beforehand to put in the divemaster kit. This is medically confidential information, and the envelope will not be opened unless there is a medical emergency involving a non-responsive diver.

No one participates without being 100% up to date!

Team, we have made a final proposal for San Jacinto Dive ops.

Two days during the week of Dec 7-11. Mobilizing the day before and demobilizing the day after.

We still need the RPM and team to confirm they are available during this week.

Please let us know if you will be available to participate this week.
